Guidelines for Altitude Correction of Pollution Performance of Insulators

Mr. Igor Gutman
Sweden

TAKEAWAYS

- Physical principles related to the influence of air density on the discharge process:
 - Clean conditions
 - Polluted conditions
- Status of correction on altitude in IEC/CIGRE:
 - AC
 - DC
- Collection and analysis of all available data on flashover voltages of polluted insulators:
 - Different altitude from sea level to 6000m
 - Covering the period of publications 1987-2010
- Practical proposals for harmonization of the correction of the required creepage distance for altitude:
 - AC
 - DC

INTERNATIONAL SPEAKER FROM CIGRE

Received his Ph.D. Degree in High Voltage Engineering from State Polytechnic University, Leningrad, Russia. Has close to 40 years of Professionals experience in electrical engineering:

HVDC Research Institute Leningard, Russia, 1981-1993 (Senior Researcher)

Since October 2017 works for Independent Insulation Group in Sweden (Senior Expert Insulation and Marketing Director)

Published more than 250 technical papers, Distinguished Member of CIGRE, member of Swedish IEC TC 36 “Insulators”, Senior Member of IEEE, member of several CIGRE/IEC WG/MT (CIGRE B2.57, B2.69, B2.73; IEC WG 11, MT 18 and 24).

ABOUT CIGRE AND CIGRE-India

The International Council on Large Electric Systems (CIGRE), with its Headquarters at Paris deals in the field of Transmission and Generation. It functions through 16 Study Committees formed for various disciplines of Power Systems. Each Study Committee comprises about 30 experts drawn from various countries. In addition, some more experts are members of the Working Groups/Task Forces formed by these Study Committees. It is a matter of pride that India is represented in all the 16 CIGRE Study Committees as regular member.

CIGRE (Paris) has about 14000 members from 100 countries. Wherever there are more than 40 equivalent members in any country a National Committee is formed with the following aims:

- To disseminate the technical information to the members of the national committee.
- To propose papers for presentation at CIGRE sessions
- To encourage membership of CIGRE
- To organize representation in CIGRE session / symposia.

CIGRE (India) is an affiliate of Central Board of Irrigation and Power. It is the Indian National Committee of CIGRE and is a registered society. It co-ordinates the activities of CIGRE in India, through a number of National Study Committees and disseminates the information about the activities of the CIGRE Study Committees and Working Groups to various organization in India. From India there were 820 equivalent members for CIGRE in the year 2019.
