ANNOUNCEMENT

Central Board of Irrigation and Power (CBIP) and SPE-India in association with The Society of Power Engineers (I) Vadodara Chapter, are organizing 2-Day Conference on "Power Reforms - Process, Expectations and Achievements" on 25-26 May 2022 at Hotel Grand Mercury Vadodara, Surya Palace, Sayajigunj, Vadodara (Gujarat)

INTRODUCTION

In India as well as world over, Reforms in Power Sector has gathered momentum mainly due to the need of sustainable growth of the Nation and to provide stable and quality power. The Western Countries have already been in working on them for more than 40 years. However, developing countries started following the footsteps in later stages. The Reforms generally revolve round the following:

- Unbundling of Utility into Generation, Transmission and Distribution Companies, as also make them accountable for services.
- Amendments in Electricity Acts and Rules.
- Creating a Regulatory Regime.
- Inducting Grid Discipline.
- Creating Power Market & Trading Platform.
- Open Access and its operating principles.
- Developing modules of Public Private Partnership in Power Sector.
- Introducing mandatory Energy Audit.
- Labelling of Energy Efficiency for Power Equipment like Motors, Air-conditioners, Refrigerators, Transformers, etc.
- Promoting Renewable Energy Sources including Mega Projects and Reducing Carbon Footprints.
- Putting development of Power Sector on Fast Track.

India and many developing countries have reaped tangible benefits out of the Reforms. The Conference is aimed to evaluate the outcome of the Reforms in the form of Achievements and Expectations. The Conference will also provide platform to discuss the metamorphosis of Power Reforms and Issues faced by various stakeholders.

TOPICS TO BE COVERED

Technical Papers are invited on any topic pertaining to the aim and scope of the conference that includes but not limited to following:

- Fundamental principles governing the process of Reforms
- Regulatory framework and its impact
- Various modules for accelerated power network development
- Policy framework for Renewable Energy
- Impact on network due to Reform
- Impact on Consumer Relations
- Technical advancement to meet the challenge of 24x7 Power

- Integration of Renewable Energy Policy & Regulations
- Power Trading and Pricing Policies
- Star Ratings and Labeling on Appliances & Equipment
- PAT Schemes
- Awareness of Energy Management
- Support of Government in meeting the challenges of Power Reforms.
- Role of Private Agencies and SPVs in the accelerated development
- Development of alternate sources of fuel to replace fossil fuels
- Role of Financial Institutions in support of the Reforms

Above topics are indicative, the author can submit paper on other topic which may be relevant to the subject of the Conference. Experts who desire to present paper/case studies on above topics or any relevant topics, are welcome to submit their papers by 5th May 2022. The papers received will be scrutinized by a technical committee. The authors will be informed about the acceptance of paper or otherwise.
