

Recent Reviews by the PGDC Students about the Courses and Institute

One of the premier institute which dedicates its services to various technical sectors and training to young engineers as well. Good training facility for young engineers and best faculties for relevant subjects. Be a part of this group..

Utkarsh Pandey- PGDC T&D 5th Batch CBIP

I completed my PGDC from CBIP in year 2018 in Thermal engineering. Its a wonderful place to learn. They use to provide assistance whenever I need the help. The faculty had a great experience in Thermal power plant and I considered myself lucky to be taught by them. After completing the course I got placed in Bahwan Cybertek as Data Analyst. I would recommend students to opt for this institute not only because it provides good placement but also helps in development of the student

Vishal Singh- PGDC Thermal 7th Batch

CBIP is one of the good organization for increasing your practical and theoretical knowledge about thermal and other power sector.

i am a student of 6th batch thermal power and selected in instrumentation based company in Gujarat ..All faculty and staff members are supportable and having good knowledge about their field.

Shambhoo Nath Pal - PGDC Thermal 6th Batch

Amazing learning environment with the best faculties on the subject.....the management doesnt rest until the whole batch is placed.....great place for engineers who cant find a job.....u will learn plus get placed....

Shashank Sharma - PGDC T&D 10th batch

It's a great place for learning about power engineering ... Thermal N TND both ... Good environment ... Supportive faculty ... N about placement.. I've got placed in a good company through CBIP ... But placement always depends on the current market situation.. CBIP gives it's 100% efforts for placement ... It's a great place for learning and placement too.... Overall my experience was good with the institute..

SOUMYA RANJAN PALAI- PGDC Thermal 7th Batch

Achievement- Applauds, Opportunities- Thoughts, This is what I gained from CBIP. CBIP clarified my vision of the future. The entire faculty and management of this institution are very cooperative. My biggest learning has been here at CBIP.

GOURAV SHARMA- PGDC T&D 9th Batch

I studied PGDC Thermal Power plant 2017 batch and got place in Bahwan Cybertek in Chennai as a Data Analyst. Classes in CBIP are good. Most of the classes is conducted by Power plant engineers & experienced people so it's easy to learn. CBIP will send students to On-Job training in Power plant where you see machine & working live. By that students can understand easily of all the concepts & idea.

If you are a South Indian you have some Issues with Language & Food for some period of time then you use to it.

Darshan R- PGDC Thermal 7th Batch

CBIP is an amazing place to increase your practical knowledge in power engineering (thermal and transmission and distribution)..Its CEA Certified. They put 100% effort for placements and have good networks/tie ups. It will definitely have an advantage in getting jobs in power companies.

Aashima Agnihotri- PGDC Thermal 4th Batch
