

CONTENTS

	Pages
Foreword	(iii)
1. Environmental Aspects of Small Hydro Development — <i>Dr. S. Maudgal</i>	1
2. Hydrological Data Collection — <i>P.K. Bhatia</i>	6
3. Hydrological Data Analysis — <i>P.K. Bhatia</i>	20
4. Estimation of Power Potential and Determination of Installed Capacity — <i>Prof. Devadutta Das</i>	43
5. Assessment of Power Potential and Finalisation of Installed Capacity — <i>T.A. Deodas</i>	48
6. Survey and Investigation of Small Hydel Projects — <i>T. Ranganathan</i>	51
7. Geological Investigations for Small Hydro Projects — <i>G.K. Kaistha</i>	58
8. Special Features of Small Hydro Schemes in India — <i>S.A. Char</i>	71
9. Design of Small Hydropower Projects — Hydraulic Structures and Water Conductor System — <i>Dr. H.S. Badarinath</i>	80
10. Water Conductor System of Small Hydro Power Projects — <i>Mohan John</i>	113
11. Mini Hydro-Electric Projects — Modes of Execution — <i>K.C. Verma</i>	124
12. Small Hydro Power — Civil Works — <i>Arun Kumar</i>	128
13. Hydro-Turbines for Small Hydroelectric Stations — <i>Prof. Devadutta Das</i>	146
14. AC Generators for Small Hydroelectric Power Station — <i>Prof. Devadutta Das</i>	162
15. Hydro-Turbines and Generators — Types and Selection — <i>T.A. Deodas</i>	168
16. Power Evacuation Arrangement — <i>Prof. Devadutta Das</i>	171
17. Small Hydro Development in India under the World Bank Line of Credit — <i>Dr. B.S.K. Naidu</i>	175
18. Economic and Financial Analysis of Small Hydro Power Projects — <i>Arun Kumar</i>	190
19. Cost Aspects of Small Hydro Generation Including Measures to Minimise Capital Costs — <i>S. Dorai Raj</i>	201
20. Operation and Maintenance of Small Hydro Stations — <i>V. Ramadass and S. Mookandi</i>	215
21. Design Aspects of Dam-Toe Power Houses with special reference to Kerala — <i>K. Balachandran Nair</i>	220
22. Innovative Design for Mini Hydro Power Houses on Punjab Canals — <i>K.C. Verma</i>	226
23. Approach of Karnataka to harness Mini Hydels — <i>B.R. Jagan</i>	237
24. Mini Hydro Power Potential in Punjab (India)— Its Assessment and Exploitation — <i>K.C. Verma</i>	242
25. Experience of Existing Private Developers— A Case Study — <i>Anil Sethi</i>	252
26. Equipment Availability for Small Hydro Power Generation — <i>T.N. Visweswara</i>	263
27. Report on ESMAP Study — <i>T. Ranganathan</i>	277
28. Working of Hydrology for Small Hydro Projects — <i>T. Ranganathan</i>	291
29. Light-Weight Portable Micro Hydel Sets — <i>Dr. B.S.K. Naidu</i>	300
30. Preparation of Feasibility and Detailed Reports — <i>O.P. Sehgal</i>	311
31. Sustainable SHP Development in China — <i>Prof. Tong Jiandong and Ms. Cheng Xialei</i>	323
32. Hydroelectric Power Potential in India — <i>Prof. Devadutta Das</i>	329
33. Status of Small Hydro Power (SHP) Development Programme in India — <i>Suresh Agrawal</i>	337
34. Small Hydropower Project Development—An Overview — <i>Prof. Devadutta Das</i>	343
35. Automation of SHP in China — <i>Ms. Cheng Xialei</i>	347
