

# CONTENTS

Foreword	(iii)
Preface	(v)
<b>Chapter - 1 : Introduction</b>	1
<b>Chapter - 2 : Types of Busducts</b>	3
<b>Chapter - 3 : Design and Selection Criteria</b>	11
3.1 General	11
3.2 Selection Criteria	11
3.3 Sizing of Conductor and Enclosure	11
3.4 Features of Busbars	12
3.5 Insulator Arrangement	13
3.6 Conductor Supporting Arrangement	13
3.7 Design of Support Structure	14
3.8 Effect of Solar Radiations	14
3.9 Skin Effect	15
3.10 Proximity Effect	18
3.11 Bus Bar and Enclosure Joints	19
3.12 Selection Criteria - Factors Affecting Busduct Design	19
<b>Chapter - 4 : Busduct Layout</b>	29
4.1 General Layout of Generator Busduct for Thermal Projects	29
4.2 Generator Terminations – Line and Neutral Side	30
4.3 Neutral Grounding Arrangement (NGR & NGT)	31
4.4 Surge Protection & Voltage Transformer (SP & VT) Cubicle	31
4.5 Air Pressurization System	32
4.6 Busduct Termination of Generator Transformer	32
4.7 Generator Busducts (Hydro Projects)	33
4.8 Medium Voltage Busducts	34
<b>Chapter - 5 : Technical Specification</b>	37
5.1 General	37
5.2 Isolated Phase Busducts	37
5.3 Specification for Isolated Phase Busduct	37
5.4 Specification for Segregated Phase Busduct	45

<b>Chapter - 6 : Accessories</b>	55
6.1 Introduction	55
6.2 Current Transformer	55
6.3 Voltage Transformer (VT)	55
6.4 Lightning Arrester (LA)	55
6.5 Surge Capacitor	55
6.6 Voltage Transformer and Surge Protection (VT and SP) Cubicles	56
6.7 Marshalling Box for VT Cubicles	56
6.8 Generator Neutral Grounding System	56
6.9 Seal Off Bushing	57
6.10 Rubber Bellow/Metallic Bellow	57
6.11 Shorting Plate	57
6.12 Wall Frame Assembly	57
6.13 Aluminium End Caps/Blanking Plates	57
6.14 Conductor Hardware	58
6.15 Air Pressurization System (For Generator Busducts)	58
6.16 Drain Arrangement	58
6.17 Rain Hood Arrangement	58
6.18 Silica Gel Breather	58
6.19 Space Heater, Illumination and Grounding	59
6.20 Wiring	59
6.21 Name Plate	59
6.22 Finish	59
6.23 Paint	59
<b>Chapter - 7 : Support Structure for Busduct</b>	61
7.1 General Description	61
7.2 Material	62
7.3 Design Aspects & Calculation	62
7.4 Galvanising	72
7.5 Selection of Structural Section	73
7.6 Check for Seismic Load	73
7.7 Type of Supports	74

<b>Chapter - 8 : Manufacturing Guidelines</b>	75
8.1 General	75
8.2 Process Instruction for Cutting	76
8.3 Process Instruction for Shearing	76
8.4 Process Instruction for Bending	76
8.5 Process Instruction for Rolling	77
8.6 Process Instruction for Tig Welding	77
8.7 Process Instruction for Mig Welding	77
8.8 Process Instruction for Drilling	78
8.9 Process Instruction for Painting	78
8.10 Process Instruction for Assembly	79
8.11 Bolted Electrical Contacts - Procedure	80
8.12 Checking of the Contact Surfaces	80
8.13 Preparation of the Contact Surfaces	81
8.14 Mounting Instructions	81
8.15 Mounting Types	81
8.16 Tightening Torques	82
8.17 Inspection	82
8.18 Inspection Report	83
8.19 Galvanising of Support Structure	84
8.20 Cleaning and Painting for the Panels and Other Accessories Where Painiting is Required	84
8.21 Manufacturing Quality Plan	85
<b>Chapter - 9 : Testing Requirements</b>	99
9.1 General	99
9.2 List of Type Tests	99
9.3 Water Tightness and Air Leakage Testing	102
9.4 Procedure of the Type Tests	102
9.5 Routine Tests	103
9.6 Pre-commissioning	103
9.7 Performance Tests	103
9.8 Special Tests	103

<b>Chapter - 10 : Packing, Transportation &amp; Site Storage</b>	115
10.1 Packing	115
10.2 Transportation	116
10.3 Site Storage	116
10.4 Unloading, Inspection & Handling	118
<b>Chapter - 11 : Erection, Testing and Commissioning</b>	119
11.1 Erection and Test Instruction of Busduct	119
11.2 Preconditions	119
11.3 Time Schedule and Staff Planning	121
11.4 Required Tools, Materials and General Welding Instruction	122
11.5 Execution	126
11.6 Test Procedure	157
11.7 Field Quality Plan (FQP) General Instruction for Execution of FQP	160
<b>Chapter - 12 : Operation and Maintenance</b>	163
12.2 General	163
12.3 Safety Measures to be Followed during Maintenance	164
12.4 Regular Checks	164
12.5 General Overhaul	166
12.6 Disturbances	168
12.7 Instructions Referring Mounting and Dismounting	169
12.8 Accessories for Maintenance and Erection	174
<b>Chapter - 13 : Spare Parts Management</b>	179
13.1 Introduction	179
13.2 Criteria for Quantifying Spare Parts	180
13.3 Medium Voltage Busduct	181
<b>Chapter - 14 : Appendixes and Drawings</b>	185
<b>Biographical details of the Authors</b>	227
