

CONTENTS

	Page No.
Foreword	(i)
Bhubaneswar	
1. Hypothetical Designs Storms Determination—Need for Standardisation and Developmental Efforts— <i>A.D. Mohile</i>	1
2. Design Storm Studies for Icha Dam and Chandil Dam of Subernarekha Multipurpose Project (Bihar)— <i>R. Saxena, S.N. Kathuria and S.D. Kulkarni</i>	6
3. Design Storm Studies of Medium Irrigation Projects in Orissa— <i>S.N. Kathuria and S.D. Kulkarni</i>	11
4. Review of Storm Studies for Gandhisagar Dam— <i>D.S. Madan and J.N. Nanda</i>	17
5. Hydrometeorological Aspects of August 1982 Storm over Orissa— <i>S.N. Kathuria, R. Saxena, S.D. Kulkarni and A.D. Mohile</i>	21
6. Historic Storm and Flood of August 1982 in Lower Mahanadi Basin— <i>B.P. Das</i>	29
7. A Joint Probability Analysis for Design Storm Evaluation— <i>Surinder Kaur and D.S. Upadhyay</i>	33
8. Rationalised Form of Inglis Flood Formula 'P' Inglis— <i>Dinker Purohit</i>	38
9. Analysis of Severe Rainstorms of Contiguous Indian States— <i>O.N. Dhar, A.K. Kulkarni, B.N. Mandal and Shoba Nandargi (Miss)</i>	52
10. A Brief Appraisal of Rainstorms from Hydrological Considerations— <i>K. Mukherjee, B.C. Jain and N.Y. Apte</i>	63
11. Meteorological Aspects of Flash Floods— <i>S.D.S. Abbi</i>	70
12. Design Floods by Markov-Renewal Theory— <i>K. Achuthan</i>	72
13. Unusual Flood in River Brahmani in the Year 1975— <i>M.H.P.B. Patnaik</i>	74
14. Unusual Storm Event Ramiala Irrigation Project—A Case Study— <i>M.K. Misra and B.S.N. Murthy</i>	76
15. Unusual Storm Event with Particular Reference to the 1971 Cyclone and Discussion on the Effect of Cyclones on Dam Safety— <i>B.P. Mohanty</i>	81
16. Unusual Flood in the River Vamsadhara in the Year 1980— <i>M.H.P.B. Patnaik</i>	84
17. Flood Forecast in Subernarekha — Importance of Rainfall and QPF Information—A Case Study— <i>R.K. Jain</i>	85

RECOMMENDATIONS 86

Srinagar

18. Extreme Precipitation due to Western Disturbances in Northern India—*S.D.S. Abbi and B.C. Jain* 87
19. Probable Maximum Precipitation in Northwest India—A Generalised Approach—*P.R. Rakhecha and B.N. Mandal* 89
20. Design Flood Estimation—A Case Study—*A.M. Kalra* 97
21. Unprecedented Rain Storm of September 1988 and its Aftermath—*Awtar Singh* 100
22. Estimation of One-Day Point PMP of Stations in India from Mean Annual and 100-Year Rainfall—*O.N. Dhar, A.K. Kulkarni and B.N. Mandal* 108
23. Design Storm Estimation for Indian Basins—Need for Removal of Deficiencies and Drawbacks—*O.N. Dhar* 114
24. Unusually Heavy Rainfall Situation Over North India—*G.R. Gupta* 119
25. Western Disturbances—A Study Through Satellite Imageries—*Ranjit Singh* 126
26. Review of Design Storm & Flood Studies for Salal Dam in Chenab Basin—*Dr. P.R. Rao and D.S. Madan* 135
27. Some Thoughts on Flood Forecasting—Future Goals—*Y.V. Dharma Rao and Dr. P.R. Rao* 155
28. Ice Problems in Planning and Operation of Hydro Power Plants—*H.R. Sharma* 163
29. A Rainstorm Model for the Dam Safety—*G.C. Basu* 170
- RECOMMENDATIONS** 175

Narmada Sagar

30. Case Studies of Severest Rainstorms over the Western Region of India—*O.N. Dhar, B.N. Mandal, A.K. Kulkarni and S.S. Nandargi (Miss)* 177
31. Development of Western Disturbances—A New Perception—*Ranjit Singh* 183
32. Hydrometeorological Aspects of Severe Rainstorms in Western India—*K.S. Ramasastry* 189
33. Outstanding Rainstorms of the Western Region of India—A Brief Appraisal—*O.N. Dhar, B.N. Mandal, A.K. Kulkarni and S.S. Nandargi (Miss)* 197
34. Severe Storms Observed in Vidarbha Region—*S.C. Sakhalkar, V.C. Shahane and Pratima K.S. Naidu* 204
35. P-Inglis—Rationalized Inglis—Derivation and Storm—*Dinker Purohit* 210
36. Hydrographical Analysis of Cloud Burst—*S.N. Sharma* 225

37.	Flash Flood of August 1979 in the Machhu Basin— <i>P.R. Rakhecha and S.S. Nandargi (Miss)</i>	234
38.	Unusual Storms in Gujarat, Case History for the Storm of June 1983 over Saurashtra Region— <i>M.U. Purohit, K.E. Modhwadia, K.U. Nathani and C.K. Bhagatwala</i>	239
39.	Unusual Storms in Gujarat, Characteristics of the Storm of August 1979 over Machhu Basin of Saurashtra Region— <i>M.U. Purohit, K.E. Modhwadia, K.U. Nathani and A.A. Dave</i>	243
40.	Unusual Storms in Gujarat—Case History for the Storm of July 1988 over Kachchh Region— <i>M.U. Purohit, K.E. Modhwadia, K.U. Nathani and R.M. Suthar</i>	247
41.	A Design Storm Study of June 1983 Storm over Gujarat— <i>D.S. Upadhyay, N.Y. Apte and B.C. Jain</i>	252
42.	Unusual Storm in the Area Around Nanded in August 1983— <i>D.N. Kulkarni, V.C. Shahane and Pratima K.S. Naidu</i>	259
43.	A Meteorological Study of the Maharashtra Floods of July 1989— <i>Ranjit Singh, R.H. Walde and D.C. Gupta</i>	266
44.	Was July 5, 1988 Storm at Roorkee an Unusual One?— <i>B.S. Mathur and N.K. Goel</i>	269
45.	Need for Reducing Subjectivity in Estimation of Design Storm—A Case Study— <i>O.N. Thapar, A.V. Khare and R.C. Maheshwari</i>	274
	RECOMMENDATIONS	279

Nagarjunasagar

46.	Flash Flood and Dam Safety—Case History of Kaddam Dam— <i>C.V.R. Murthy and K. Venkatanarayana</i>	281
47.	Unusual Rainstorms and their use in the Safety of Dams— <i>P.R. Rakhecha, B.N. Mandal and N.R. Deshpande</i>	291
48.	Sequential Maximization of Rainstorms for PMP Estimation of Design Storm— <i>O.N. Dhar and S.S. Nandargi (Miss)</i>	301
49.	Initiation of Storm Studies in India and Proposals for Countrywide Analysis of Major Rainstorms— <i>O.N. Dhar</i>	305
50.	An Appraisal of Rainstorm Transposition and its Temporal Distribution— <i>S.R. Puri and K. Mukherjee</i>	310
51.	Analysis of Severe Rainstorms of the Peninsular States for Design Storm Estimation— <i>O.N. Dhar, B.N. Mandal, S.S. Nandargi (Miss) and B.D. Kulkarni</i>	314
52.	Some Aspects of Design Storm Evaluation— <i>D.S. Upadhyay, D.K. Gupta, D.C. Manton and O.P. Jindal</i>	322
53.	Unusual Storms and Necessity of Dam Safety— <i>J.F. Mistry</i>	329
54.	A Study of some Unusual Storms over Southern Region— <i>S.D.S. Abbi</i>	335

55.	A Brief Appraisal of Rainstorm Studies on Coastal Areas of India— <i>O.N. Dhar, S.S.Nandargi (Miss) and A.K. Kulkarni</i>	338
56.	Some Hydrometeorological Aspects of October 1983 Storms over Andhra Pradesh— <i>K.S. Ramasastry</i>	342
57.	Lower Krishna Floods of July 1989— <i>P. Ramachandra Rao, B.K. Mittal and A.D. Mohile</i>	348
58.	Temporal Distribution of Design Storm Rainfall— <i>P.R. Rao</i>	356
59.	Study on Loss Rates for Application to Severe Rainfall Storms— <i>P.R. Rao</i>	373
60.	Design Storm Analysis — Status and Need for Review— <i>S.D. Kulkarni and S.N. Kathuria</i>	376
	RECOMMENDATIONS	385
