FOREWORD	(iii)
Introduction	1
Objective of the Study	1
Scope of the Study	1
Experimental Procedures	1
Conclusions	8
CHAPTER I : DETAILS OF ENGINEERING CONSULTANCY	11
CHAPTER II : MATERIALS USED IN LINE SUPPORTS, CONDUCTORS AND HARDWARE IN T & D SYSTEMS AND OBSERVATIONS MADE DURING THE VISIT OF C.E.C.R.I. SCIENTISTS TO M.S.E.B. INSTALLATIONS	12
Line Supports	12
Conductor Materials	13
Hardware	13
CHAPTER III : ATMOSPHERIC CORROSION OF METALS	15
Introduction	15
Oxidation of Metals and Atmospheric Corrosion	15
Effect of Atmospheric Humidity on Corrosion	15
Chemical Atmosphere	17
CHAPTER IV : LIFE CATEGORIES OF THE LINE SUPPORTS, CONDUCTORS AND HARDWARES	20
CHAPTER V : MATERIALS AND PROTECTIVE SCHEMES FOR THE GIVEN LIFE CATE- GORIES FOR RURAL, MARINE, INDUSTRIAL AND CHEMICAL ATMOS- PHERES	21
Introduction	21
Materials	21
Polluted Inland Atmospheres	22
Non-polluted Coastal	22
Polluted Coastal	22
Chemical Atmosphere	23
Life Category of 2-5 Years	23
Specifications for Zinc and Aluminium Coatings	23
CHAPTER VI : COMPARISON OF RELATIVE COSTS OF THE MATERIALS AND PROTEC- TIVE SCHEMES	25
Inland Unpolluted Environment	25
Polluted Inland Environment	25
Non-Polluted Coastal Environments	26
Polluted Coastal Environment	26
Inland Unpolluted Environment	29

CHAPTER VII : SURFACE PREPARATION AND APPLICATION OF PROTECTIVE SCHEMES	31
Introduction	31
Preparations of Steel Surface by Sand Blasting to Second Quality Finish	32
Chemical Resistant Paints	34
Paint Application	34
Brush Application	34
Metal Coatings	35
Instruments for Quality Control	36
Control Coupon	36
Dry Paint or Metal Coating Thickness	36
Facilities required for the proper Application of the Protective Systems	36
CHAPTER VIII : RECOMMENDATIONS ON MATERIALS AND PROTECTIVE SCHEMES FOR T & D SYSTEMS AND LIKELY SAVINGS	38
Assessment of the Likely Cost Savings to the M S.E.B. by the Adoption of the Recommended Corrosion Control Measures	38
