

CONTENTS

Foreword

DISCUSSION PAPERS

1. Small Hydropower Potential in India and its Development DP-1
Praveen Saxena
2. Environmental and Social Aspects of Hydropower Development DP-6
R.K. Khanna
3. Early Prediction Management & Mitigation of Environmental and Social impacts DP-18
— A case study
Cdr. D.D. Naik
4. Preparation of detailed Project Report (DPR) for Hydro Power Projects DP-28
P.K. Sood
5. CDM Application to Small Hydro Power DP-35
S. Balagurunathan
6. Investigations for SHP Projects DP-39
S.K. Singal
7. Investigation, Planning & Design of Hydropower Projects DP-47
P.K. Sood

READING MATERIAL

8. Investigation, Planning and Design of Hydropower Projects RM-1
Y.N. Apparao
9. Hydro Power Development in India — Economic Challenges RM-9
Devinder Chawla, Kaustav Mukherjee and Amit Kapoor
10. Hydro Potential in India and its Development — An Overview RM-23
S.D. Dubey and Major Singh
11. Strategies for Small Hydro Development in India RM-29
Dr. B.S.K. Naidu
12. Small Hydropower — Private Sector Perspective RM-44
A.K. Goel
13. Financing of Small Hydropower Projects under Private Sector Participation RM-53
V. T. Valavan and P.R. Reddy
14. Hydropower Development Strategy with Private Sector Participation RM-62
S.C. Sharma, M. Krishnamoorthy and S.P. Mukherjee
15. Malana HEP Experiences — A Policy Frame Work for Early and RM-71
Economic Development of HEP
Dr. Mukesh Raizada
16. Strategy for Improving the Viability of Hydropower Projects from RM-79
Commercial Lenders Perspective
Bharati Rao
17. Hydro Power Project Financing in India — Are We There ? RM-85
Mohanjit Singh
18. Need for Adequate Engineering Geological Investigations in Water Resources Development RM-94
Projects in Himalayan Region
P.C. Nawani
