

Policy on Net Metering for Solar Grid Interactive Rooftop and Small SPV Power Plants in the State, Dated: 25.03.2013, Andhra Pradesh

Sl. No.	Description	Summary
1.	Applicability	The net metering facility shall be allowed only for 3 Phase service consumers. Single Phase consumers are not eligible for net metering to avoid imbalance in the phases.
2.	Energy Accounting	The SPV generator shall pay for the net energy in a billing month as per applicable retail supply tariff decided by regulatory commission to the concerned DISCOM, if the supplied energy by the licensee is more than the injected energy by the solar PV sources of the consumer(s). Any excess/ surplus energy injected in to the grid in a billing month will be treated as inadvertent and no payment will be paid for such energy.
3.	Protection	The SPV generator is required to provide an appropriate protection system on their incoming side/ consumer premises with the feature of "Islanding the SPV generator" when grid fails.
4.	Metering	The SPV generator shall bear the entire cost of metering arrangement provided including its accessories. The installation of meters including CTs & PTs, wherever applicable, shall be carried out as per the departmental procedures in vogue with prior permission of DISCOMs.
5.	Subsidy	They can avail any prevalent subsidy offered by Government of India in this regard.
